

Introducing a New Book Series from CRC Press

Data Analytics Applications

About

This exciting, timely new book series focuses on how data analytics are being applied in various domains. Ranging from marketing, healthcare, education, law, to government, some of the leading data analytics practitioners and researchers worldwide are editing the volumes in this important data analytics field.

Series Editor

Dr. Jay Liebowitz

Dr. Jay Liebowitz is the Distinguished Chair in Applied Business and Finance at Harrisburg University of Science and Technology. He has served as the Orkand Endowed Chair in Management and Technology at University of Maryland University College, full Professor at Johns Hopkins University, and the first Knowledge Management Officer at NASA Goddard.
